

Level::getBirdsUsedForCompletion

Level::run

Level::isLevelComplete

```
graph LR; A[Level::getBirdsUsedForCompletion] --> C[Level::isLevelComplete]; B[Level::run] --> C;
```

The diagram illustrates a control flow or dependency. Two white rectangular boxes on the left, labeled 'Level::getBirdsUsedForCompletion' and 'Level::run', have blue arrows pointing to a gray rectangular box on the right labeled 'Level::isLevelComplete'. The gray box has a slight 3D effect with a darker top and bottom edge.
